

farshad jafari

Assistant Professor

shahid rajaie cardiovascular , medical & research
center

Department: Pediatric Cardiologists

Secondary department: Pediatric Cardiologists

Taking care of a child's heart is a guarantee of heart health in adulthood.

I am Dr. Farshad Jafari, a pediatric interventional cardiologist and faculty member of the Rajaei Cardiovascular, medical and research center in Tehran (Iran). My field of activity is the prevention, diagnosis, and treatment of congenital heart diseases. Also, in children and adolescents who do not have congenital heart disease, caring for their cardiovascular health will reduce the risk of cardiovascular disease in adulthood. **Today, many pediatric heart diseases can be treated with cardiac catheterization and angiography without surgery.** I have an interventional cardiology fellowship and I treat many pediatric heart diseases in the catheterization laboratory of Rajaei Heart Center, which is the largest center for the treatment of congenital heart diseases for children in Iran (Tehran). **Dear parents, I hope to bring a happy heart for you and a healthy heart for your child, by guiding and answering your questions.**

Visiting times:

Saturday and Wednesday evenings from 12:00 to 15:00

Tuesday mornings from 8:00 to 12:00

To be admitted to Dr. Farshad Jafari's service, just send a message on WhatsApp or Telegram to make the necessary arrangements:

send an Email to Dr. Farshad Jafari

Dr. Farshad Jafari's angiography days are Sunday and Monday, and patients must be hospitalized the day before.

Follow Dr farshad jafari:

Website

Call the secretary:

Tips about hospitalization in the children's ward:

- When admitted to the hospital, take all the medical documents with you.
- No patient is similar to another patient, so avoid comparing your patient's problems with other patients.
- The child must be accompanied by a woman (men cannot stay in the children's section).

- The department secretary is responsible for your admission, accounting, and discharge affairs.
- When entering the department, the bracelet will be tied to your child's hand, which you should not open until the time of discharge.
- We do not accept children under the age of 12 as visitors in the inpatient wards.

Necessary documents for admitting patients:

1. passport of the child.
2. Passport of the parents.
3. Any relevant physician reports or documents.
4. Carrying the required deposit.
5. In the children's ward, only a woman can be with the child.

Heart hotel

One of the good features of Rajaei Heart Center is the existence of a five-star hotel called "Heart Hotel" in the hospital area. Heart hotel provides complete services 24 hours seven days per week to patients and their respective families. This five-star hotel is equipped with all the facilities needed to stay in a charming and peaceful atmosphere for patients and their loved ones. call hotel:
